

# Mémoire du Vin

L'ALLIANCE D'UNE PASSION  
& DE LA CONNAISSANCE

## L'Ecrin du Vin

In continuity with the project Mémoire du Vin, FiveCo has developed a case for Grand Cru. It combines oak, glass and leather to highlight the nobility of a wine of excellence.

Activated by a tactile button, placed on one side of the column, a LED-based light will allow for the revealing of the bottle hidden under the glass spy.

The quality of the materials used and the finish make this case an exclusive item.
